Quarter Report (Sep'22 – Nov'22)

PROJECT INTRODUCTION

Supporting education of school going 100 children losing their prime earning parent. Project Aims to channelize the children losing their parent to come out of their emotionally turbulent zone to regularize their school and education. A major vision is to refrain children from school dropout, abandonment which may further lead to indulgence in any illegitimate affairs due to lack of guidance.
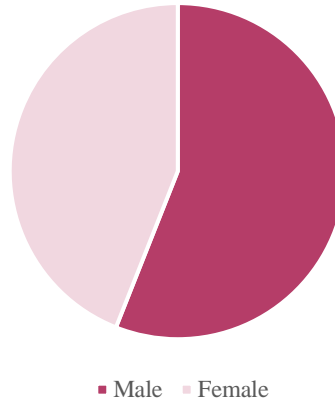

QUARTER HIGHLIGHTS

- ✓ Networking with 60+ affordable private school and NGOs across India. Visited Delhi's schools for obtaining permission letter and processing identification of students.

- ✓ Reached out to 500+ students and their parents for the introduction of "Project Butterflies" for shortlisting 100 children in utmost need.

- ✓ Regular updates and project associated developments were shared with Mr. Rohtash over various platforms for information and approval for eligible students.

- ✓ Contacting parents/kids/ on regular interval for obtaining required documents and level one telephonic counseling and documentation collection over platforms most suitable to them.

- ✓ Plan for inculcating the element of counseling and psychological support to strengthen the mental health for the students to perform better academically and socially from Q2 of the project.

- ✓ Two detailed meetings between Funding and implementing Agency has been conducted during the quarter to discuss project highlights from FY 2021-22 and project planning for FY 2022-23 as per MOU.

- ✓ Maintaining prescribed documents files for all 100 approved beneficiaries.

- ✓ Centralized portal called live 4 better has been introduced in Sep 2022 and thereafter all data is managed and recorded on the portal successfully.

✓ Fee receipts along with performance and attendance of 100 students till quarter 2 have been uploaded in portal.

FINANCIAL REPORT

Annexed along with this report.

SUCCESS STORY

- o   Name- Raj Tangariya
- o   Age- 09 years
- o   State: Uttrakhand
- o   School: Himalayan central school, Bageshwar

This story is about a 3rd class student who is benefitting from Project Butterfly. Raj has always liked his school (Himalayan central school) and never wanted to change the school. After his father's demise when the economic conditions were not favorable the mere thought of change of school would shatter Raj but thankfully Project butterfly came as a savior and saved him from another shock.

After his father's demise Raj would not speak to many nor participate in programs. But with constant follow ups and sessions, Raj is now participating in several competition in school, also taking advance classes and studying long hours. He also participated in various programs during summer and autumn break.

Raj makes sure he works hard to be able to make his mother proud.

Raj's message to the project team, "Every Rupee on my scholarship is worth spending, will never let you down".

We are good to see how confident Raj is becoming and wish him all the best!
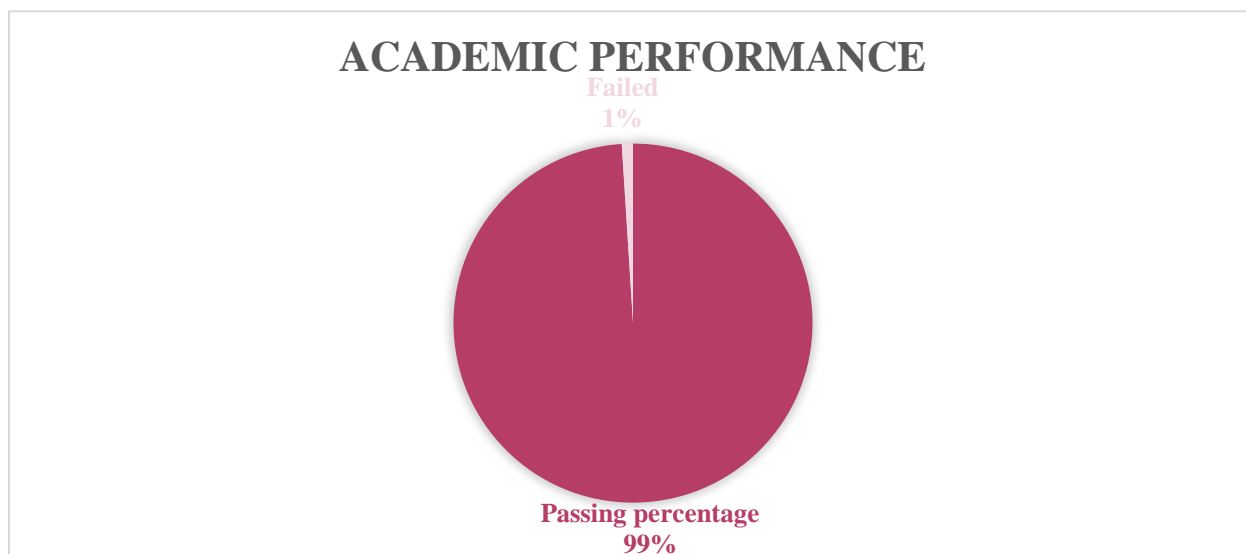

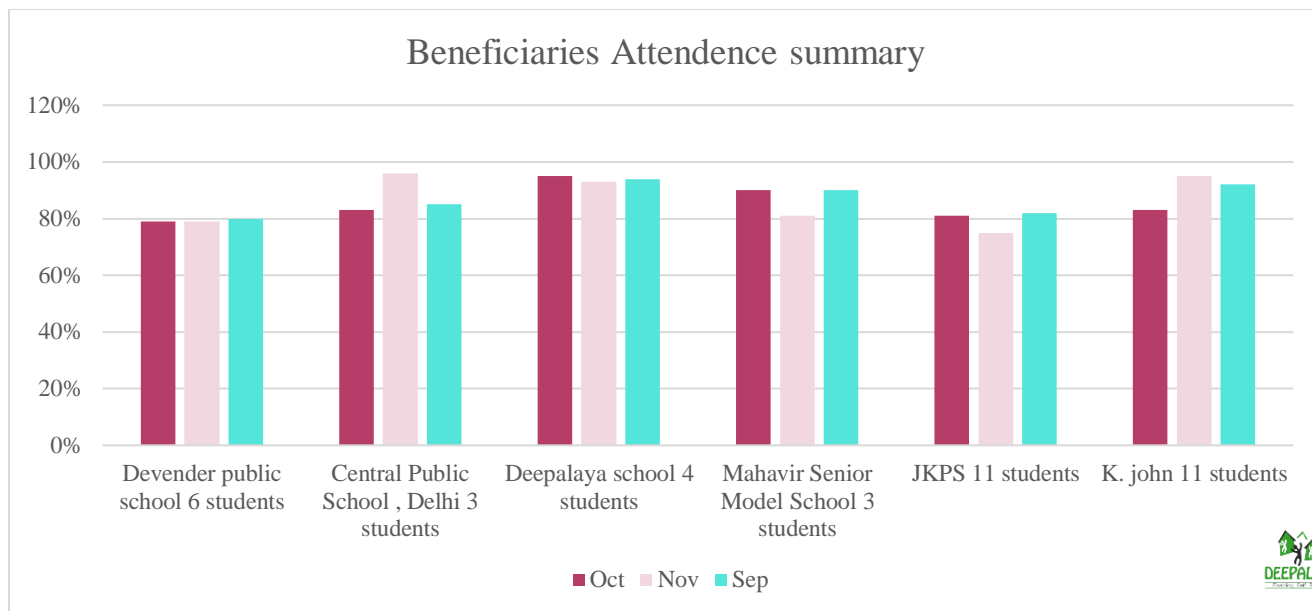

MENTORING SESSION REPORT

Target Group

As per the proposal two group counseling sessions has been conducted with the two different age group of students on different topics.

S.No.	Age Group	Session attendees (Students)	Session Topic

ACHIEVEMENTS

- Nishta Gulati stood the best performer in the class
- The students pan India came together to convey their greetings to the project team

- Mostly single Parents are not tech savvy and struggling operating WhatsApp to share across fee receipt, attendance and performance of the student on time. Their lack of knowledge delays the document sharing process.

PICTURE GALLERY

FUTURE PLAN

- More home visits/School visits to discuss students' performance with parent and teachers
- Motivate the students well for preparing for final assessments
